Dancelle Angcon

Graphic Designer | Technical Support
Block 22, Lot 2, Palm Hill Subdivision, Brgy. Palo Alto, Calamba, Laguna, Philippines | dancelleangcon58@gmail.com | 09457432118

Professional Summary

Detail-oriented graphic designer and electronic technician with a background in Electronic Products Assembly and Servicing (EPAS) and current BSIT studies at City College of Calamba. Skilled in creating logos, typography, brand posters, and digital marketing graphics, with technical training in PCB assembly, soldering, troubleshooting, repair, and testing of electronic products. Familiar with Canva, Figma, Photopea, and PixelLab, as well as multitesters and soldering tools. Adaptable team player with logical thinking, problem-solving ability, and a strong commitment to continuous learning.

Areas of Expertise

- Design Software Proficiency: Using graphic-design applications to create and edit visual assets.
- Design Principles: Using hierarchy, contrast, balance, and color to make compositions clear.
- Wireframing: Planning screen structures and user flow before detailed styling.
- Web and Digital Design: Designing layouts for websites, landing pages, banners, and digital ads focused on user engagement.
- Digital & UI/UX Basics: Building wireframes, app interfaces, and interactive prototypes with tools like Figma to ensure smooth digital experiences.
- Layout and Composition: Arranging text and imagery into a clear, balanced visual flow.
- Drawing custom vector art, digital icons, characters, or hand-lettered type for brands and media.
- Branding and Identity Design: Creating logos, color palettes, typography systems, and brand guidelines to establish a company's visual voice.
